# Kyle Xyian Dilbeck

## Full Stack Software Developer

Phone: [\(831\) 595-0373](tel:8315950373) • Email: [Kyle@KyleDilbeck.com](mailto:Kyle@KyleDilbeck.com) • Portfolio: [KyleDilbeck.com](http://KyleDilbeck.com)

Linked-in: [LinkedIn.com/in/kxdilbeck](https://www.linkedin.com/in/kxdilbeck) • Git: [Github.com/XYIAN](https://github.com/XYIAN)

### EDUCATION:

- Bachelor of Science in Computer Science for Software Engineering **California State University Monterey Bay** *BSCS in Software Engineering, May 2020*
- React Expert **Udemy Online** *Certificate in Full Stack React App Development, Jan 2022*

### Technical Skills, Tools & Languages (Primary):

**React**, JavaScript, **Typescript**, Visual Studio Code(VSC), Project Management, Continuous Integration & Development (CI/CD), **Team Leadership**, Git, **Github & Gitlab**, Figma, Jira, **VSC Extension Development**, A.G.I.L.E., Relational Application Developer (RAD), SASS, HTML & HTML 5, Markdown, **Ajax**, Docker, YAML, Prime React, React Hook Forms, **Node.js**, NPM, Webpack, NGX, web applications, SQL, Digital Ocean, Azure Dev Ops

### Technical Experience:

April 2023-Present **Yamaha Motor Co. USA**- *Lead Software Consultant- Full time/Remote*

As the Lead Software Consultant at Yamaha Motor Company, I bring expertise in Full Stack React Typescript development, Java, and extensive experience in implementing full applications and Restful services while collaborating with cross-functional teams and ensuring the timely delivery of high-quality products.

Position Responsibilities include (but are not limited to):

- Quickly teach ExtJs developers the essentials of react and how to use Visual Studio Code.
- Oversee software development projects, including migrating front-end applications from Ext.JS to ReactJS.
- developing complete screens in an extensive application using React.
- implementing Restful services, and integrating them with the UI
- Collaborate with cross-functional teams to ensure timely project delivery and provide technical guidance throughout the development cycle. With a focus on quality and efficiency, I lead my team to achieve outstanding results and deliver high-quality products.

### Achievements:

- Published a series of Yamaha extensions on Visual Studio Code Marketplace that is utilized by the YDS team that contains powerful tools including but not limited to snippets, keybindings, commands, themes, and intellisense.
- Created an extensive custom component library and corresponding snippet libraries which has streamlined development, especially for new hires.

- On November 10, 2023, YDS Canada officially moved from ExtJs to ReactJs
- On December 10, 2023, YDS USA officially moved from ExtJs to ReactJs, led by myself and two other developers.

---

August 2022 - Feb 2023 **Bluon Inc** - *Full-Stack Developer - Full time/On-site*

Acted as a seasoned professional software Swiss army knife by working on multiple projects to provide quick software solutions as complex problems arose, specifically with new and innovative projects. My work has encompassed diverse initiatives such as enhancing user analytics, modernizing and streamlining legacy software and code, managing the launch of new divisions, safeguarding and refining web server performance, optimizing internal team workflows through software solutions and automations, and executing targeted SEO strategies. Primary tools: python, java, javascript, react & react native, next.js, typescript, chron, Jira, SQL, Postgres, Redux, Ajax, SaaS, GA4, GCP, GSC, GTM, GAPI, Typescript, Retool, Zapier, Coda, Digital Ocean, Git, Visual Studio Code, php, jquery, Lottie files, Docker, Ring Central(API).

**Position Responsibilities include (but are not limited to):**

- Liaison Between the Operations Team, Development Team, Member Support Team, Technical Support Team, Finance Team and Executive Team stakeholders to communicate key information
- Building on top of the existing software stack to enhance cross-server data transfer and enable access to key business insights
- Conducting due diligence on new software to find the most flexible and scalable solution to complex problems
- Creating and managing the entire lifecycle of internal software tools for various teams
- Integrating external software libraries and APIs into new and existing projects
- Maintaining legacy code written by other developers and developing on top of the existing code
- Editing the Bluon website, including occasional creation of new pages and helping to maintain internal dashboard accuracy
- Retrieving data for internal business intel and reporting purposes

**Achievements:**

- Created and project managed an internal development team while creating software solutions and automations for other internal teams saving them hours of repetitive work.
- Fully rebuilt and restructured legacy php front and backend to react and node with a mobile-first design. Because of this, Bluon queries received a 250% increase in SEO/indexing(is now ranked #1)
- Created and structured user analytics with GA4 in react and react native and automated structuring data from big query to local production databases to serve internal teams real-time analytics

- Created key dashboards for each internal team with automated, real-time data so their job was easier, quicker, and more effective.
- Created, updated, maintained, and optimized web pages quickly, securely, and organized.
- Presented insights, data, and progress for my team to CEO, COO and Director of Operations weekly and the entire company monthly.
- Presented to board members & management about KPAs and important user analytics by visualizing real-time data.
- Redesigned UI/UX of multiple web pages and app pages to be easier to use and more visibly user friendly such as color blind safe and increased text contrast while also improving “first paint” and general paint loading times which all helped increase SEO.

( see most recent letter of recommendation below )

To Whom It May Concern,

I'm writing to recommend Kyle Dilbeck for your consideration. Kyle has been a part of our team at Bluon for the past 8 months and has been an invaluable asset to our team.

As the Director of Operations, I had the pleasure of working with and directly manage Kyle on a daily basis. Kyle was a great teammate, always reliable and hard working. Kyle thrived on tackling problems that required out-of-the-box solutions and was always up for the challenge. Most importantly, Kyle had a high degree of integrity and was supportive of other team members.

As the Chief Operating Officer, Kyle was a pleasure to work with and manage. Kyle is highly organized, with a great eye for details, and always willing to go the extra mile. Kyle consistently provided us with excellent results and was an invaluable asset to our team.

I am confident that Kyle will be an outstanding addition to your team, and I highly recommend Kyle for your consideration.

Sincerely,

Danica Bunnett  
Chief Operating Officer  
Bluon, Inc.

Tanner Morgan  
Director of Operations  
Bluon, inc.
